SARSILMAZ®

Since 1880

Our story had begun in 1880 in a small shotgun atelier, which was destined to become **one of the World's biggest manufacturing plants of firearms.**

Today, Sarsilmaz is a well-established manufacturer of small arms with an enviable **reputation worldwide.** By continuous innovation, Sarsilmaz becomes one of the World's most valuable brands.

A Showcase of Modern Manufacturing

Our brand new machinery park, equipped by the latest examples of CNC equipment, including eleven-axis mills and robotic equipment, proved to be **a showcase of modern manufacturing.** Continuous investment in **R&D**, technological equipment and growing product lines, resulted in the company's ability to produce lots of national and international patents and utility models.

A Competitive Actor in Aviation Industry

By continuous investment on R&D and machine park, the production capabilities of Sarsılmaz were highly extended; which brings Sarsılmaz to the **league of largest aviation companies**.

In a short while, more than 200 aviation components were produced for **AIRBUS MILITARY, Sikorsky, BOEING, Agusta Westland**, in co-operation with **TAI- Turkish Airforce Industries** and **TEI- Turkish Engine Industries**.

A Reliable supplier of Armed Forces

Sarsılmaz is the leading privately owned company in Turkey that has the capability of producing guns for Turkish **military law enforcement**, and **civil use**.

Considering that Turkey has the second largest army in **NATO**, we take pride of being **the sole official pistol supplier** of the Turkish National Police and the Turkish Armed Forces.
